SELECTED COLLABORATIVE RESEARCH ENDEAVORS

- 1995-1996 Graduate Research Assistant, “Philadelphia Metropolitan Region Housing Needs Assessment of People Living with HIV and AIDS.” Responsible for sampling methodology, survey instrument development, interviewer training, data collection, and analysis. Utilized innovative data collection strategy by empowering people living with HIV and AIDS to serve as paid data collectors for the study.
- 1995-1999 Doctoral Candidate, “An Ethnographic Study of the Sexuality of Homeless Women.” Conducted a six-month ethnographic research study in an urban homeless shelter for women, using interviews, participant observation, site document collection and thematic data analysis.
- 2000 Site Coordinator, MediCaring. Subcontractor for the RAND Corporation under an Archstone Foundation grant for multi-site study. Assisted in instrument review and revision. Coordinated site team of clinical, administrative, and research staff.
- 2001-2003 Co-Site Coordinator, Advanced Illness Care Coordination Study. Multi-site study under the leadership of Dan Tobin, M.D. and The State University of New York at Albany. Coordinated partnership between The Hospice of the Florida Suncoast and Humana Medical Plan, Inc.
- Author and Co-PI/Co-Director, Caregiving at Life’s End: The National Train-the-Trainer Program. Coordinated a national needs assessment of end-of-life caregivers. Needs assessment consists of random, stratified sample of hospice programs and caregivers nationwide. Jointly responsible for project management, staffing, reporting, curriculum design, and training. Project funded by the Administration on Aging, \$600,000, with in-kind support from the National Hospice and Palliative Care Organization.
- 2004 Collaborator, CREATE Residency Communication Project. Provided methodological assistance in the design and implementation of an educational intervention and outcome measurement focused on teaching communication skills to medical residents. Coordinated the establishment of a project-specific collaborative relationship with the National Hospice and Palliative Care Organization and secured \$10,000 funding from NHPKO for the project.

- 2004 Co-Investigator, The Collaborative, Hospital-Based Spirituality Initiative. Provided methodological assistance in the design and implementation of a three-year project developing and testing strategies that encourage ownership of the professional responsibility for spiritual care among all care providers.
- Collaborator, Chaplains as Mentors Project. Provided methodological assistance in the design and implementation of a survey instrument to assess medical students' perceptions of chaplain mentors.
- 2005-2008 Project Manager, The National Nurse Emergency Preparedness Initiative (GW IRB# 030521, 090632). Coordinated the development of an interactive, web-based course for nurses. \$2 million project funded by the Department of Homeland Security's Office of Domestic Preparedness. (Principal Investigator: Dr. Jean E. Johnson, Senior Associate Dean, George Washington University School of Medicine and Health Sciences)
- 2006-2007 Advisor/Review Team Member, Out and Aging: The LGAIN-Metlife Boomer Study. One of three researchers responsible for overseeing the development, implementation and analysis of the first comprehensive national survey of lesbian, gay, bisexual and transgender baby boomers. Sample consisted of 1,000 people 40-61 years old. Survey was administered by Zogby International, the polling and market research firm. (Fellow Co-Advisors: Jean Quam, PhD and Brian DeVries, PhD).
- 2006-2009 Co-Investigator, The National Emergency Medical Services Preparedness Initiative. Led the development of interactive, web-based training for EMS providers. \$4.7 million project funded by the Department of Homeland Security's Office of Domestic Preparedness. (Principal Investigator: Frank Cilluffo, The George Washington University Homeland Security Policy Institute).
- 2007-2008 Co-Investigator, Motivated Strategies for Learning as a Predictor of Student Success in Online Learning (GW IRB# 080753). This study explores the usefulness of the Motivated Strategies for Learning Questionnaire (MLSQ) as a predictor of graduate students' success in online learning and examines the psychometrics of the MSLQ with graduate level students. (Principal Investigator: Christine Pintz, PhD,

FNP; Fellow Co-Investigators: Laurie Posey, EdD and Yianna Vovides, PhD).

2007-2008

Co-Investigator, Introducing Distance Based Education to the Medical Curriculum: A Survey of Faculty and Students (GW IRB# 070718). The goal of this study is to assess the barriers to distance education for medical students and basic science as well as clinical faculty; and to evaluate faculty and student perceptions regarding distance education. A third goal is to evaluate a pilot online case-based multispecialty-based course for senior medical students in emerging infectious diseases in order to consider the broader-based implementation of other distance-based curricula in the future. (Principal Investigator: Larissa May, MD; Fellow Co-Investigator: Laurie Posey, EdD).

Project Advisor, Developing and Testing Nursing Quality Measures with Consumers and Patients: Aims I, II and III (GW IRB# 080610). Based on review of the literature and the interviews with nurses in the first two phases of this study, the investigators developed a set of domains of care coordination to move toward a formal measure. The purpose of the third phase of the research is to gather data from members of the public who have recently experienced a hospitalization, to explore both (1) their experiences having their care coordinated and (2) their responses to our preliminary set of domains. (Principal Investigator: Ellen Dawson, PhD, ANP; Co-Investigators: Christine Pintz, PhD, FNP, Andrea Brassard, PhD, ANP, and Jean Johnson, PhD, FAAN).

2009-2010

Advisor/Review Team Member, Out and Aging II: The LAIN-Metlife Boomer Study. One of four researchers responsible for overseeing the development, implementation and analysis of a follow-up national survey of lesbian, gay, bisexual and transgender baby boomers and their heterosexual counterparts. Sample consisted of 1,000+ people 40-61 years old. Survey was administered by Harris Interactive, the polling and market research firm. (Fellow Co-Advisors: Jean Quam, PhD, Brian DeVries, PhD, and Loree Cook-Daniels).
