

HIV/AIDS Institute Research Awards 2007 – 2009

Investigator	Study Title	Collaborators	Institutional Support	Funding
Round I				
Fatah Kashanchi, PhD	Pathogenesis and molecular events related to HIV-1 Vpr and its functional consequences in HIV/AIDS cells	GW SMHS, CNMC, HU	\$31,167 (3 Institutions)	\$40,000
Angelike Liappis, MD	Identifying barriers to healthcare access and utilization in hospitalized HIV-infected patients	VAMC, GWUMC, GW CCAS	\$114,087	\$30,000
Round II				
Gary Simon, MD, PhD	Characterization of HAART-Treated Immune Non-Responders	GWUMC, CNMC	\$21,291	\$25,000
Steven Zeichner, MD, PhD	Characterization of KSHV virions produced in the normal replication pathway and in an alternative replication pathway triggered by host cell apoptosis	CNMC, GWUMC	\$76,082	\$45,000
Round III				
John Deeken, PhD	Does anti-retroviral therapy induce mechanisms of cancer chemotherapy drug resistance in HIV positive patients?	GU, GWUMC, NCI	\$25,888	\$24,000
Kylene Kehn-Hall, PhD	Detection of Biomarkers in Long Term Non-Progressor HIV-1 Patients	GWUMC, GU	In-kind % effort from GU	\$25,000
Fernanda Bianchi, PhD	Psychological factors, clinical characteristics, and health risk	GW CCAS, VAMC,	\$51,210	\$21,000

	behaviors of urban, male HIV-positive tobacco smokers and non-smokers
