Pastimes

Running, spending time with my nieces and nephews, international politics, international public health issues, and movies

My Future Goals

Work abroad in control and prevention of infectious diseases.

What's best about the School of Public Health and Health Services at GW

SPHHS is located in the heart of DC; there are numerous opportunities that range from conferences to internships. The opportunity to be apart of organizations that are actively pursuing changes in public health.

What's best about living in the Washington, DC Area

There are plenty of things to do, see, and experience!

My message to applicants

Take advantage of the city and all of its opportunities. GW's motto is "Something Happens Here," be that something that happens here at GW, DC, and the US.
